## THE PILGRIM FATHERS

made not only Bread from their first crop of wheat, but Beer as well. Every one of them drank Malt Beer as a matter of course.

They were hardy, God-fearing men; they made no laws against individual privileges, and exploited no "Cocktail Suppers" in their Yellow Journals; and they were better off for it.

IT IS YOUR PRIVILEGE to drink a better Beer than ever they had; it's a Beverage, a Food, and a Tonic; and it's

## SUGAR

Willett & Gray's Sugar Journal for February 13 says of the raw sugar market:

**Visible Supply.**—Total stock of Europe and America, 3,614,939 tons, against 3,765,185 tons last year at the same uneven dates. The decrease of stock is 150,555 tons, against a decrease of 173,820 tons last week. Total stocks and inventories together show a visible supply of 3,704,339 tons, against 3,865,485 tons last year, or a decrease of 161,146 tons.

**Raws.**—After the Cubans had held the market persistently through the week without allowing a decline below the discount of the full reciprocity allowance, the Porto Ricans, who hold the advantage over Cuba of having no duties to pay, came in at the close, and forcing sugars on the market, caused decline to 3,700, basis 96, followed by further decline to 3,676, basis 96, reducing spot quotations for the week 8c. per 100 lbs. For a time toward the competition to sell will be between Porto Rico and Cuba, as the crop receipts accumulate at shipping ports.

As anticipated by us, the figures of receipts of Cuba crop for month of January show an increase for all periods over general expectations, being 132,124 tons, or 10,074 tons in excess of the same month two years ago, when the crop season was similar to the present one.

At the close Cuban sugars were sold at the parity of 3,676. Handled, say at 23 1/2c. e. and f., 96 test, with March shipment offered vainly at 2 1/2c. e. and f. A further decline to 2 1/4c. e. and f. is looked for.

There is not likely to be any improvement in prices for several weeks owing to planters' necessities to realize on a considerable portion of their production.

European markets are without influence here now, but show only small fluctuations from 10c. closing at 9 1/2c. d. for beet sugar.

## STOCKS IN SAN FRANCISCO
